

Seamless Integration of SAP and Nintex

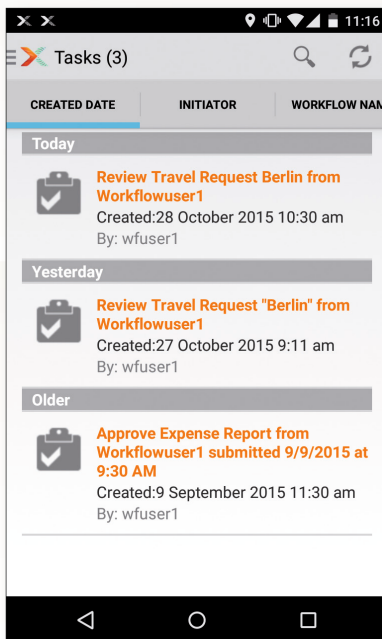

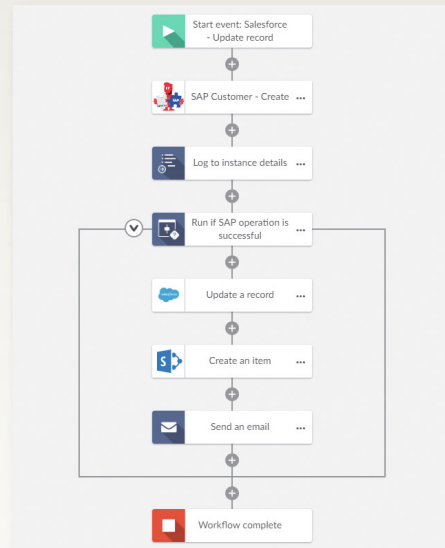

ERPConnect Services for Nintex

ERPConnect Services simplifies the integration of SAP data into your SharePoint and cloud solutions. Customers that use Nintex Workflow or Nintex Forms on any platform can utilize ERPConnect Services to integrate SAP processes into their applications.

Combine the strengths of SAP, SharePoint, ERPConnect Services and the Nintex Workflow Automation platform.

- » Users stay in their familiar environment
- » Lower development costs
- » Reduced training time
- » Increased efficiency and usability
- » Simple process modeling
- » Built-in collaboration features (SharePoint)
- » Nintex Workflow Cloud supported
- » Integration with Nintex Forms
- » Nintex for Office 365 capable

Prebuilt solutions:

ERPConnect Services for Nintex comes with ready-to-use, pre-configured business scenarios, including Sales, Procurement, and Travel Management. The scenarios work with standard SAP processes and significantly reduce the time to solution. The scenarios are compatible with the Nintex Mobile App and can be configured for all common devices.

- » Ready-to-use SAP business integration solutions
- » Direct processing in SAP
- » Complete approval scenario
- » Mobile ready
